

VERDERFLEX VP2-HT MA

Dosing pump system for pools and water treatment

Description

Peristaltic digital, proportional dosing pump for dosing chemicals according to input from external mA signal. Wall and foot mounted pumps available. Protection class IP 55. This dosing pump system has a longer engine life and better performance under pressure because of a bearing on the rollers holder.

Features

- Built-in controller dosing according to mA
- Start time delay setting
- Status and programming led alarm
- STAND-BY function to stop dosing
- Priming button for quick installation
- Default parameter restore option
- Hose break sensor/alarm
- Level probe sensor input for checking product levels
- On/off switch
- Schuko plug

Function modes

- Manual: constant
- On/Off: cyclic dosing with programmable delay
- mA; proportional dosing according to mA received, proportional dosing freely programmable

Display

- Backlit LCD display, 16 x 2 characters
- 4 Languages
- Display of flow rate
- Password protected

Options

- Personalized front
- Three rollers for more accurate dosing
- Alarm relay output
