Verderhus

HSB-250-200-C

Description

Verderhus screw centrifugal pumps combine the best features of centrifugal and positive displacement pumps. They define a new standard for low head, high flow pumps. The Verderhus pumps have a large clearance screw impeller, which gently feeds product into the pump chamber. This allows the product to be efficiently transferred into the discharge line and allows for large solids to be easily pumped. The screw design impeller is ideal for high solid contents and viscuous liquids. It produces a high efficiency, low NPSHr pump, lowering both energy usage and operational costs, generating a lower overall cost of ownership.

Features and benefits

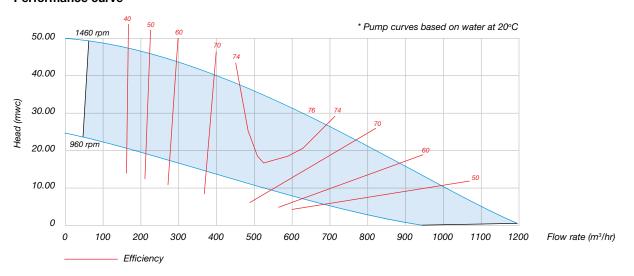

- → Large solid handling with <10% sludge, <30% slurry
- → Gentle, low shear pumping, meaning lesser damage to the fluid
- Low energy use compared to other technologies
- Low abrasive wear meaning reduced maintenance costs

Technical data

Ambient operating temperature	-5, 40 °C
Fluid temperature	-20, 100 °C
Maximum pump noise	up to 82dB
Max. flows	1200 m³/h

Max viscosity	3000 cP
Maximum solid size	160 mm
Solid content percentage	Sludge: 10% - Slurry: 30%
Max. head	50 mwc

Performance curve

Verderhus HSB-250-200-C

Materials

Impeller housing/Cone Standard: Cast Iron GG25 Options: Stainless Steel 1.4408/Tufftride Hardened Impeller Standard: Ductile Cast Iron GGG50 Options: Stainless Steel 1.4408 Tufftride Hardened Bearing housing Standard: Cast Iron GG25 Transition flange Standard: Cast Iron GG25 Drive shaft Standard: Stainless Steel 1.4021 (AISI 420) Bearing Standard: Double Row Angular Contact Ball-Sealed for Life Mechanical seal-product side Standard: MG1-G4-Silicon Carbide/Silicone Carbide/VITON Mechanical seal-motor side Standard: MG1-G4-Carbon/Ceramic/NBR Mounting frame Standard: Steel S275 JR Suction flange DN250 PN10 Discharge flange DN200 PN10 Lubricarion options Standard: RENOLIN CLP GEAL OIL 150 Motor options and overall pump weight With IEC200 Motor: 690 Kg, With IEC225 Motor: 872 Kg, With IEC250 Motor: 1020 Kg, With IEC280 Motor: 1220 Kg O-rings material Standard: Nitrile (NBR) Paint (pump-motor) Standard: Two Pack Epoxy Paint-Blue RAL 5012	Description	Material
